

DRY GOODS FOR FALL SEASON OF '95. AT THE PEOPLES STORE.

Fifth Street and the Diamond.

H. E. PORTER.

We respectfully ask the ladies of East Liverpool and vicinity to visit our store this week, and see the new FALL GOODS just opened. They consist of an elegant line of Dress Goods and Dress Trimmings—the first novelties of the season. We have also for your inspection our first lot of Ladies' and Misses' Jackets, and a magnificent display of Ladies' Capes in velvet, cloth and silk. The prices are remarkably low for quality and style of goods now awaiting your approval and inspection.

THE PEOPLES STORE

THIS WEEK

—WE CALL ATTENTION TO—

3-SPECIAL DRIVES-3

Don't Smile When We Tell You the First on the List Is A Blanket Drive.

We admit that even to talk of Blankets these hot days gives one a tired feeling, but nevertheless when we tell you there is a saving of at least a dollar to a dollar and a half a pair in these blankets for you we know you will be very much alive to your own interest in the matter. Cold weather is ahead of us all right.

\$3.50 a Pair

Is the hot weather price of the case of Blankets we propose to make a run on this week. They are pure wool country Blankets, large size, good weight, and come in white, red, gray and plaids. If they don't give you a five dollar bill of satisfaction then we won't ever ask you to buy another Blanket from us.

12 Yards for \$1.

The second drive is 12 yards of a 12c Unbleached Canton Flannel for \$1.00.

16 Rolls for \$1.00.

The third drive is 16 rolls of a good 10c Cotton Batt for \$1. No more than \$1 worth each of Flannel and Batts sold to any one customer.

THE BOSTON STORE,

Monday is Labor Day and according to the custom observed in this office for three years there will be no issue of the News Review. Read all the news on Tuesday.

HOW THEY WILL MARCH

Chief Marshal Blake Issues an Order.

BUSINESS MEN ARE INVITED

The Formation Of the Parade Made Known—The Different Unions Will Form In Line According To This Announcement—All Things Are In Readiness.

W. V. Blake, chief marshal of the Labor Day parade, has issued the following order, and desires that all unions govern themselves accordingly:

"Monday will be Labor Day to all intents and purposes. Some people are running away with the idea that those who participate in the parade are union men only. Mistaken idea. The ranks are open to all, every man who labors for his living is welcome, everyone who has his living made for him is welcome. Come all and join our ranks on Monday. Do not the American Mechanics observe the glorious Fourth of July? We celebrate with them. The valiant old fighting patriots have their parade on Decoration Day. Long life to them. The different political parties have their parades. Our employers have their day at Columbian Park. Why not labor celebrate at least one day in the year. The visitor will be in the van of the parade. President A. Hughes will take them in charge, followed by the Glass Workers; Mr. Rigot or Ritchie will see them in line. The kilnmen will follow and marshaled in line by Mr. Rit Meador and Mr. Hugh P. McCurran. The Pressers, Turners, Handlers, Jiggermen, Dippers, Saggarmakers, Packers, Coopers, Typographical union, Carpenters, etc., will have the attention of Messrs. Columbus Martin and John Powell, who will place them in their respective positions. The city council will follow the above in line, followed by the knights of the razor, fire brigade, merchants, etc. Mr. Charles Berg will attend to the city officials. The tonorial artists and the rest of the contingent will also receive Mr. Berg's attention. Haynes' and Manley's bands will render inspiring music along the route of procession which will form on Fourth street, right resting on Market, 8 a. m.

W. V. BLAKE, Chief Marshal.

Mr. Blake is especially desirous of having the business men know that the invitation to them is broad, and they are urged to take part in the parade. The more the merrier and a great turn out is expected. All the preparations for Labor Day are complete, but Chairman Powell has called a meeting of the general and sub-committees for this evening in order that all business may be wound up and everything made ready. It is thought that there will be a great crowd in town, and arrangements are being made to entertain them.

THOUSANDS SAW IT.

There Was a Big Crowd at the Buffalo Bill Show.

Buffalo Bill and his show left the city last night, taking with them a pocket full of Liverpool gold, and leaving behind many pleased patrons of their performances.

The crowd that saw the show yesterday afternoon was estimated anywhere from 8,000 to 12,000 people, and it was recorded that 5,000 were there at the night session. Those who did not see the show at Chicago were treated to what is undoubtedly the most novel performance before the public, but as few new features have been added since the rough riders coursed around the arena at the big fair it was rather tame to many persons in the audience. One portion of the enclosure yesterday afternoon was deep with water and last night it was a sea of mud. This had little effect upon the Arabian acrobats, one of whom continued his performance through the midst of the water much to the delight of the audience, and none whatever on the riders. The acrobats attracted no end of attention because they were a new feature and carried out their part of the program very well. The fearless riders attracted general admiration, and the manner in which they galloped about the slippery track served to prove that they were not alone fair weather soldiers. The chorus of Cossacks, together with the dancing of two of their number, was especially good, and the

riding of the Indians, their long legs sticking closely to the horses' sides was a feature that attracted no end of applause. Colonel Cody was loudly applauded when he appeared on a magnificent bay horse, and the American cavalry, with Old Glory in place, got its share of popular approval. Annie Oakley and John Baker did some remarkable shooting, but the riding was the principal feature of the performance. The roof of the grand stand at the ball ground contained an interested audience during the afternoon and evening, and the glass works had its share of the crowd. They were afforded a good view of the performance, and saw as well as the people who paid. When the show was over there was much confusion on Jethro street, horses, heavy wagons, electric cars and carriages being blocked several times. There were many narrow escapes for pedestrians, but as far as could be learned no one was hurt.

AT HIS OLD TRICKS.

The Man With a Knife Is Slashing Dresses Again.

The individual who has made himself odious by cutting dresses whenever he has an opportunity was very much in evidence on the show grounds yesterday afternoon. He had a knife in the sideshow, and some excitement was caused when it became noised around that a little girl, whose name was not learned, had been a victim. Her dress had three long cuts in it. A little later another dress was discovered in the same condition, and in half an hour there was more damage of a similar character. The man was not seen, except a person who cut his finger nails with a wicked looking knife near the doorway a few minutes after the discovery was made is the guilty one. The police have absolutely no clue to the party, so carefully does he guard his actions.

Miss Maggie Colclough, of Minerva street, was in company with her father at the show when the cowardly and wanton miscreant cut her dress literally into ribbons. It is a pity the police can not apprehend the rascal, but Mr. Colclough will make it warm for him if he discovers his identity.

ONE TOO MANY.

James Sharp Wants a Change in His Family.

James Sharp, a resident of Third street, called on Mayor Gilbert this morning for the purpose of finding ways and means to rid his home of a step-daughter whom he does not like. He said his wife's daughter would not work, and had taken on such great airs that he feared he would have to hand over to her the management of the house. He did not want this state of affairs, and to keep his own position and dignity believed he should be rid of the daughter. Ways and means were what he wanted so that Sharp can carry out his cherished design.

Mrs. Sharp also called on the Mayor, and told another side of the story, and the magistrate decided that he would have nothing to do with the case inasmuch as he was out of all family quarrels.

THEY LEFT TOWN.

The Police Were Too Much For the Sharpers.

The crowd of pickpockets and sharpers in town yesterday was made up of three men and an equal number of women, all of whom understood the various intricacies of their dangerous calling. The police and railroad detectives kept them well in sight during the afternoon, and they at length decided to leave town, all going to Wheeling on the same train. They were undoubtedly a dangerous crowd and the bungling work of the morning alone prevented the loss of valuables to people in the crowd. The gang were under strict surveillance the whole time they were in town.

THAT NOTIFICATION.

Mayor Gilbert Issues the Official Order.

Mayor Gilbert today issued the notification instructing the general observance of the Sabbath, and quoted a little law in order that the public may know just what is expected of them. There was a general stir in the city when it became known, but the owners of places affected in several instances informed a reporter that they would obey the law.

John Dabbs Will Get Well.

John Dabbs, the East End boy who investigated the interior of a whiskey barrel with a match the other day, is improving rapidly and will get well. The hole in his head is not as dangerous as the attending physician at first believed, and he will recover.

TEARS FOR THE BOYS

The Girls Were There to See Company E Depart.

THEY MADE A GOOD SHOWING

Captain, Supplied With Lieutenants Finley and Johnson and 42 Non-Commissioned Officers and Enlisted Men, Departed For Camp Howe This Morning.

A disinterested party standing at the passenger station this morning as the bold boys of Company E marched along the platform might have believed that all the pretty girls in town were there to bid them goodbye, but it was only a part of them.

The soldiers gathered at the armory at 8 o'clock, and the busiest man in town was Captain Supplee. All the hard work had been done before, the mess chest was packed, and the baggage was ready to be forwarded to Newark. The coaches were awaiting the occupants, transportation was secured, and all was in readiness. The boys had also been preparing for the event. Buckles shone like burnished gold, the neat leggings were firmly laced in position, and the new canteens were as proudly worn as though they were a distinctive badge of honor. Captain Supplee was ably seconded by Lieutenants Finley and Johnson, who found abundant work to keep them busy during the early hours of the morning. At length all arrangements were complete at the armory, and with every one feeling blythe and gay the company marched to the station, where they were allowed to say the last sweet words to the waiting bevy of girls. There was here and there a tear, but the majority knew the boys were bound for a week of pleasure, and laughingly gave them hints that would make the rough life of an instruction camp less hard to bear. The young soldiers bore up very well under the parting, and more than one twinkle showed that the boys expected other girls when they got to Newark. The company looked exceptionally well, and when the train pulled out cheered heartily. They take the Panhandle at Mingo, and will be in camp at 1:30 this afternoon. By evening they will be settled, and in good form by morning. They will be commanded by Colonel Gyger, of Alliance, and the camp will go down in history as Camp Howe. Captain John Simms went with the boys, and Lieutenant Sinclair was in the ranks as a private. Every man carried a day's rations, and there were more chickens concealed in the pockets of those spacious haversacks than could be found in a day's travel.

HOME FROM ENGLAND.

Liverpool People Had An Enjoyable Summer.

A tired yet happy crowd of Liverpool people returned yesterday afternoon from New York, where they landed a few days ago after having spent the summer in England. The party are Major Adams and wife, Miss Etta Hume, Mrs. Mike McGiever, Mr. and Mrs. Ted Wooliscroft, Will Cook and Edward Hancock. They have been in various parts of the country, but in the main the time was spent in Staffordshire, where they have friends and relatives in abundance. Almost all the Liverpool tourists are home now, only a few being left on the other side.

BURNED THE UMBRELLA.

A Mysterious Fire In An Uptown Restaurant.

There was a mysterious fire in an uptown restaurant last night. Some people from near Salineville had been to the show, and after it was over were peacefully eating a lunch and discussing the performance when some one detected the odor of burning silk. A search was made, but nothing could be found until a spark was seen to fall from an umbrella hanging on the wall. Examination showed the whole top of the umbrella burned away, probably from a cigar butt dropped into it by some evil-minded person.

DEFERRED THE DECISION.

After the Mayor Had Heard a Long Argument.

Mayor Gilbert this morning heard a long argument from the respective attorneys upon whether a jury trial should be granted in the case of McCain against Rinehart, but reserved his decision until next week. The case is that in which complaint is made because Harrison Rinehart places his vehicles in the street.

Well Patronized.

The Diamond well was one of the best patronized institutions in town yesterday, and many were the remarks heard about it. "Don't drink that

stuff there's dead rats in it," exclaimed one country matron as a young hopeful was about to take a drink, and the boy sniffed suspiciously as he walked away. "That woman is crazy. This is the finest mineral water in this part of the county," said a Wellsville man who heard the conversation, but some of the people dropped the cups and walked away.

A BIG DAY.

The Street Car Company Did a Good Business.

Superintendent Andrews of the street railway wore a smile of pleasure today because of the business done on the line yesterday. As near as he can estimate from the reports of the different cars the company carried over 10,000 people. It is one of the biggest day's business ever observed in town.

The show men passed a compliment on the efficiency of Superintendent Andrews by the oft repeated assertion that they never saw so many people moved in such a short time without accident.

ANOTHER TRIAL.

The Street Sweeper Seems to Work Very Well.

The street sweeper was out this morning and was viewed by a crowd of people interested in clean streets. It was suggested that the sweeper start in the gutters and sweep the dirt in the middle of the street instead of starting in the center and sweeping towards the gutters. The improvement would gather the dirt so that the wagon would have only one trip to make along the street instead of two, as at present.

PLANTED THE POLE.

The Flag Staff at the School Building Is In Position.

The flag staff at central school building was planted this morning, and makes a good appearance. It is painted white, and stands high enough to be seen far above the trees. It is made of pine, and so well spliced that it will stand many a strong storm. The raising was done by an ingenious arrangement of ropes and a derrick, with a few men to help it along. A crowd gave advice while the work was in progress.

PICKED HER POCKET.

Mrs. Nancy Allison Was Touched by a Thief.

When the parade was passing along Fifth street yesterday afternoon one of the most interested spectators was Mrs. Nancy Allison, who conducts a boarding house on Second street. She had her pocketbook where she thought it was safe, but when she emerged from the crowd she found it was gone. The matter was reported to the police, but they had absolutely nothing on which to work, and the light fingered thief got away.

A GOOD HEN.

It Was a Wonder as an Egg Producer.

A well known city official who keeps chickens killed a fine, fat hen today, and was surprised to find in its interior a marvelous crop of eggs. There were three well formed eggs covered with hard shell, and a saucer full in course of development. "Young eggs," he called them. He has had more or less to do with chickens all his life, and never before found such a gold mine in one hen.

IN THE BALANCE.

The Early Closing Movement Hangs That Way.

Some business men found a little time today to do missionary work in the cause of early closing, but as one expressed it the plan hangs in the balance, and no man can tell until Monday evening how it is all going to end. At the meeting the question will be decided for all time, and even the most faithful friends of a short day for clerks are fearful that it will be killed.

A Good Day For Carey.

The friends of George Carey smile when they greet each other today because the big first baseman of the Baltimore club is playing good ball. He had 26 put outs to his credit in the games against Pittsburgh yesterday, and made a run. He is batting much better than in the past, and they say it is because he has thrown away the heavy 19 pound stick he used so long, and is now swinging one of lighter weight.

Gone Home.

Mr. and Mrs. G. Y. Anderson and baby left on the morning train for their home in Cleveland after a month's visit with their parents of Walnut street and Thompson avenue. George is much appreciated in the World office where he holds a responsible position.

DRUNKS WERE PLENTY

The Police Had Their Hands Full Yesterday.

A DISGUSTING CASE ENDED

Mary Anne Humphries and J. D. Thompson Caught in a Stable—One John Smith On the Docket—Other Cases of Minor Importance Before the Mayor.

The police had their hands full looking after the crowds yesterday, preventing people from falling under street cars and horses, watching for thieves and pickpockets, and keeping an eye upon the unusually large number of drunks.

Officers Earle and Jennings made an unusually good capture when they landed a woman giving her name as Mary Anne Humphries and a man, who said his name was J. D. Thompson and his residence Neglev.

The pair were in a stable when located by the police, and were surprised when informed that they must go to jail. They were locked up for the night, and given the attention of the mayor this morning.

Thompson was called before the tribunal, and plead guilty to a charge of disorderly conduct. He was fined \$6.67, and gave good security for the amount.

An East End man about whose identity there was some mystery was in jail this morning, and the mayor could not understand what was expected of him. He was held until the arresting officer made out a charge but as none was forth coming he was released. The man was arrested by the patrolman, and he simply answered an alarm.

A man who gave his name as John Smith, but probably owned some other was dead drunk in the Midway last night when the police found him. He said he was from Lisbon, and gladly paid the assessment of \$6.60.

Hamlin Bourne was so drunk last night that he could not contain himself, and raised such a row that the police provided him with the soft side of a board at city hall. When summoned to answer the call of justice this morning he could not give a valid excuse for his conduct, and got \$6.60 for his fun. The fine was paid and Bourne released.

Adjusted the Loss.

The adjusters who have been examining the damage done the East Liverpool pottery decided that the building was damaged to the extent of \$1313. They acknowledged that they knew nothing about stock, and appraisers will be appointed next week. The work of repairing the damage will begin at once.

Two Judgments.

The Canton Buggy company today took judgment in the court of Squire Rose against Joseph Walters for \$113.50.

Henry W. Adams got judgment in the court of Squire Rose today against J. J. Langly for \$51, a bill for house rent.

All On the Scratch.

Wheelmen who have been looking up the rules of the L. A. W. say that Class A men can not ride in handicap races unless the district handicapper has decided on the handicaps. This may have some effect on the races on Monday, but good races are assured.

Mashed the Wheel.

A bicycle rider became tangled in a crowd on West Market street last night, and collided with the wheel of a heavy wagon. He was thrown to ground, and his machine so badly broken that he carried it away.

The Firemen In It.

Chief Adam has received for the fire company an invitation to parade on Labor Day, and the department will turn out. All the members are requested to be prompt, as there must be no delay.

Back From China.

Fung Wah, the celestial who opened the first Chinese laundry in the city, is back from China, where he spent several years, and was shaking hands with his friends here today.

The Trestle Is All Right.

The East End trestle on the electric line has been made safe in every particular, and the crowds can be carried on Monday without danger to anyone.

A Foot Race.

Fred Hulme and John Webb will run a race of 100 yards at the East End track this evening for \$25 a side. James Dunkerley is the referee.

—Miss Alice Goodwill, of Parkersburg, has returned home after a pleasant visit with friends in this city.

EAST LIVERPOOL, O., SATURDAY, AUG. 31.

For President, WILLIAM MCKINLEY, OF Ohio.

THE TICKET.

For Governor, ASA S. BUSHELL. For Lieutenant Governor, ASA W. JONES. For Auditor of State, WALTER GILBERT. For Judge of Supreme Court, THADDEUS A. MINSHALL. For Clerk of Supreme Court, ST. ALLEN. For Attorney General, FRANK MONNETT. For Representative, W. C. HUTCHESON. For Sheriff, CHAS. GILL. For Treasurer, L. R. CAMERON. For Auditor, GEO. B. HARVEY. For Commissioner, JOSEPH BRENNAN. For Infirmary Director, J. M. MCBRIDE.

SLACKWATER, Ohio, and Liverpool will be a better shipping point than half a dozen railroads entered the town. The board of commerce should be well represented at that Cincinnati meeting.

CHICAGO socialists promise to unfurl the red flag on Sunday when they march in review before Keir Hardie, but if the mayor of that wicked town has backbone nothing but Old Glory will float over any parade of any nationality.

THE friends of Hon. Tom Reed profess to see in the victory of Hon. M. S. Quay a great thing for the Maine statesman, but they would not observe it in that light if some one whispered in their ear that the Pennsylvania wonder is a close friend of Governor McKinley, and called on him when he was here a few weeks ago.

NO HOPE.

Hon. J. B. Foraker was in Columbus the other day and when asked by a reporter what he thought were the chances of Democracy this year smilingly said that he did not see why the party should poll any more votes this year than it did last, inasmuch as it had done nothing to gain votes, and commenting upon the utterance the Cleveland Leader says: "There is not a single reason why anybody who refused to vote the Democratic ticket last fall should vote for Campbell this fall. Not only has the Ohio Democracy done nothing to gain votes for itself during the past year, but the national administration, which the Democrats of Ohio have endorsed, has been even less of a vote winner. Incapacity, incompetence, and lack of patriotism have characterized its every official act. The hole in the treasury which resulted from Democratic mismanagement is still there; the tariff law which was to lift the burdens of the people and fill the national coffers to overflowing has proved an utter failure; the Monroe doctrine has been spit upon by Great Britain; the United States has been insulted by Spain and treated with contempt by France, and the blush of shame has been brought to the cheek of every patriotic American. The Democrats of Ohio can win no votes on the record of the national Democracy."

Mr. Campbell should remember his position, and not seek to push that plank in the platform which touches upon bossism in the Republican party. He owes his nomination to a boss, and if glaring statements that have not been deeded are true he is next to drawing a salary for being a candidate.

A NEW OHIO CANAL.

Association to Build One Formed in Cincinnati.

CONGRESS WILL BE APPEALED TO.

An Appropriation to Be Asked For to Make the Survey—Judge Cochran, of Toledo, Chosen President—Vice Presidents Also Appointed.

CINCINNATI, Aug. 31.—Nearly 100 delegates appointed by mayors of cities in 14 counties of Western Ohio along the line of the proposed deepwater canal connecting Lake Erie at Toledo with the Ohio river at Cincinnati, have met here and organized the Lake Erie and Miami Deepwater Canal Association. The officers elected are: President, Judge R. H. Cochran, Toledo; secretary, W. J. Shaw, Cincinnati; treasurer, General Andrew Hickenloper, Cincinnati.

County vice presidents from each 14 counties except Putnam and Paulding, which will be filled by the president, were appointed as follows:

Allen county, Henry Weible; Auglaize, Joseph Bessel; Butler, O. V. Parrish; and J. K. Thomas; Defiance, Joseph J. Jarvis; Henry, J. W. Long; Lucas, D. D. Smith and S. M. Quale; Montgomery, J. W. Stoddard and J. H. Friend; Miami, W. P. Orr and J. A. McCurdy; Shelby, H. B. Bailey; Van Wert, W. H. Hughes; Hamilton, Geo. B. Cox and M. D. Burke; Warren, C. M. Anderson.

Congress will be asked the next session for an appropriation for surveys.

THROWN FROM A SCAFFOLD.

One Killed, One Fatally Hurt and Two Escape at Cleveland.

CLEVELAND, Aug. 31.—James Beckmeister has fallen five stories from the top of The World building to the sidewalk and was instantly killed. The body of the falling man struck John Nickson, who was walking along the sidewalk, with terrific force, breaking the back and both legs of the latter, and he is dying. Beckmeister was engaged, with a number of other men, in placing a large sign on the building. The accident was caused by the slipping of ropes supporting a swinging scaffold.

Two other men, named Lewis and Cornier, who were on the scaffold with Beckmeister, had a desperate struggle for their lives, which was witnessed by a number of horrified spectators in the street. Lewis was thrown from the scaffold and caught with his hands in the narrow coping under the windows. He managed to work along till he now appears to be valuable. The mine is paying a fair dividend and the stock is nearly at par. The indications are that the depositors in the wrecked bank will be paid a good dividend with the prospects that ultimately they may receive their deposits back in full.

Fallen Bank Depositors in Luck.

PAINESVILLE, O., Aug. 31.—When the Painesville Savings bank collapsed four years ago, among the assets found was \$250,000 worth of stock in a western mine. At that time the mine was thought to be worthless, but it now appears to be valuable. The mine is paying a fair dividend and the stock is nearly at par. The indications are that the depositors in the wrecked bank will be paid a good dividend with the prospects that ultimately they may receive their deposits back in full.

Two Railroad Deeds Conveyed.

NORWALK, O., Aug. 31.—Two deeds conveying the Paw Paw railroad have been filed in the Huron county recorder's office. One was from William Williams, master commissioner, to John H. Sample, consideration \$24,000, and the other was from John H. Sample to A. L. Conger, John C. Frank, John W. Holloway, Nelson C. Stone, William P. Fulton and Fred E. Smith, incorporators of the Northern Ohio Railroad company, consideration \$6,730,000.

SMALL OHIO HAPPENINGS.

The Pioneer Association of Crawford County held its annual picnic in Bayrur. Speeches and athletic sports helped to enliven the occasion.

John Bird of Longbottom drove his horse and buggy into the Ohio river at Kerr's Landing, Pomeroy, and he and the horse were drowned.

Mrs. Hiram Moffatt, aged 65, wife of a farmer near Shiloh, Richland county, hanged herself to a tree in the yard. She was addicted to opium.

At Bellefontaine, William Ingalls, a Big Four switchman, was killed by getting caught between the pilot of an engine and the rear of a train.

The annual reunion of the One Hundred and Thirty-second Ohio regiment was held at Bellefontaine. About 300 old soldiers were in attendance.

The body of Attorney J. L. Leonard, who committed suicide in Bucyrus, was buried in West Liberty. He was formerly a law student at Bellefontaine.

An ex-soldiers' and sailors' picnic and beanbake was held at the Marion fair grounds, attended by the soldiers of the war of the rebellion and their families.

Eugene Oldman, aged 36 years, married, fell of a moving wheeling and Lake Erie train, at Orrville, and was killed. He was returning from a visit to his parents at Clyde.

The surviving members, 131 in all, of the Eighty-second O. V. I. held their twenty-sixth annual reunion at Kenton. McPeck of Marysville was elected president of the association for the ensuing year.

The postoffice at Ottawa and an adjoining building occupied by S. Bacon & Co. as a drugstore, were broken into by robbers. The postoffice safe was blown open with powder and is entirely ruined. They got about \$50 in money besides some small checks.

The cornerstone of the new Methodist Episcopal church of Caldwell was laid. Rev. Dr. Carr of Cambridge and J. I. Wilson, presiding elder of this district, were present. Hon. Judge William Frazer and Father Taylor deposited the treasure box beneath the cornerstone, the latter by Pastor Billingsley.

Cincinnati Livestock Market.

CINCINNATI, Aug. 30. HOGS—Market weak at \$13.00 4.50; receipts, 1,000 head; shipments, 200 head. CATTLE—Market steady at \$22.50 25.00; receipts, 900 head; shipments, 1,000 head. SHEEP AND LAMBS—Sheep market dull and lower at \$10.00 12.75; receipts, 3,000 head; shipments, 4,100 head. Lamb, market lower at \$25.00 4.50.

KNIGHTS HOMEWARD BOUND.

Washington Made Permanent Headquarters—Grand Master's Appointment.

BOSTON, Aug. 31.—The twenty-sixth triennial convocation of the Knights Templars is a thing of the past. The grand encampment has wound up its business, installed its officers and thousands of Sir Knights are leaving for their distant homes.

The city is still brightly illuminated and the streets are crowded, but many of the commanderies have disbanded. Probably at least 5,000 Sir Knights will remain in this locality for some time for business and pleasure.

The grand encampment devoted almost the entire last session to the discussion of constitutional revision. It was decided to make Washington the headquarters of the Knights Templar, and after, if no invitation is received from another place, the triennial convocation will be held in that city. A motion by Past Grand Commander E. T. Garson of Ohio to levy a per capita tax of 25 cents per year for the purpose of maintaining the archives in the city of Washington was referred to the next convocation. An invitation was received to hold the first triennial convocation of the twentieth century in Atlanta, Ga.

The following committees were appointed: Jurisprudence—J. H. Hopkins of Pennsylvania, J. C. Smith of Illinois, E. T. Carson of Ohio, J. W. Fellows of New York, B. L. Witt of Kentucky. Finance—H. L. Rouse of Massachusetts, George Davis of West Virginia, G. W. Kendrick of Pennsylvania, E. C. Bird of Connecticut, Fred Greenwood of Virginia, Testimonial—Sir Hugh McCurdy, J. C. Smith of Illinois, H. L. Palmer of Wisconsin and J. A. Geraw of Michigan.

The grand officers-elect were then installed by Grand Master McCurdy and resolutions were passed expressing the thanks of the grand encampment to the retiring grand master.

The new grand master most eminent, Sir Warren LaRue Thomas, then appointed the following officers: Grand prelate, Cornelius T. Wing, New York; grand standard bearer, Thomas O'Morris, Tennessee; grand sword bearer, Edgar S. Dudley, Nebraska; grand warder, Joseph A. Locke, Maine; grand captain of the guard, Frank M. Thomas, Washington.

The grand encampment then adjourned to meet in Pittsburgh on the second Tuesday of October, 1898.

Campus Yacht Blown Up.

HAVANA, Aug. 31.—There is a rumor that the Spanish steamer Villaverde, chartered by General Campos as his private yacht, has been blown up at sea. It is said that she had on board a ton of dynamite, being brought by General Campos to be used in the campaign against the insurgents. This dynamite exploded with terrific force, the story goes, tearing the ship into fragments.

Two Killed and Many Injured.

MACON, Ga., Aug. 31.—An excursion train on the Southern railway carrying a Knights of Pythias excursion, left the track between Holton and Pope's Ferry. The baggage car and two passenger coaches turned over. J. A. Kennerly of this city and one of the Americans, Ga., were killed and almost every person in the two coaches was hurt more or less seriously. Several of them are likely to die.

People Piled Up With Reptiles.

PERU, Ind., Aug. 31.—A large number of people crowded into Prof. Foster's snake show at the Free Street fair and overtaking the structure, caused it to collapse. The people were piled in a heap with the 4 1/2 large snakes and debris, and for a time it looked serious, but they were finally rescued without injury to any extent, without the snakes escaping.

A Woman's Sensational Suicide.

FLINT, O., Aug. 31.—Mrs. Josiah Guess, aged about 45, while suffering from temporary insanity incident to the change of life, saturated the clothing of three beds with coal oil and set fire to a heap, with the 4 1/2 large snakes and debris, and for a time it looked serious, but they were finally rescued without injury to any extent, without the snakes escaping.

A Tragedy Over a Board Bill.

ST. LOUIS, Aug. 31.—Pressed for a \$20 board bill, George Doerr shot Mrs. Apollonia Zintel in the face, fired one shot at her daughter Bertha, and then a bullet through his own brain. Doerr's death was instantaneous. Mrs. Zintel was not fatally injured. The daughter escaped injury.

Placed in Command at Chickamauga.

Murdered His Father-in-Law.

MT. PLEASANT, S. C., Aug. 31.—Boyd Coker has shot and instantly killed Augustin Welch, his father-in-law, at the latter's home. Coker surrendered. He claims self defense.

PRICES ARE TOO HIGH.

The Increase in Business Also May Go Too Far.

MONEY AFFAIRS IN GOOD SHAPE.

Crop Prospects, Except Cotton, Have Some-what Improved During the Week—Iron Prices Still Advance—Wool Speculatively Hoisted—The Business Failures.

NEW YORK, Aug. 31.—R. G. Dun & Co., in their Weekly Review of Trade, issued today, says: Improvement in market and prices continues, and whereas a few months ago everybody was nursing the faintest hopes of recovery, it has now come to be the only question in what branches, if any, the rise in prices and the increase in business may go too far. A strong conservative feeling is finding expression, not as yet controlling the markets or industries, but warning against too rapid expansion and rise. In some directions the advance in prices clearly checks future business. But encouraging features have great power. Exports of gold continue, but are met by syndicate deposits and are expected to cease soon. Anxieties about the monetary future no longer hinder. Crop prospects, except for cotton, have somewhat improved during the week. Important steps toward the reorganization of great railroads give hope to investors. Labor troubles are for the moment less threatening, and some of importance have been definitely settled. The industries are not only doing better than anybody had expected, but are counting upon a great business for the rest of the year.

The advance in prices of iron and its products has added about \$2.00 per ton more in a single week to the price of Bessemer iron at Pittsburgh, and yet the great steel companies are buying wherever they can, while the air is full of reports that this or that finished product will further advance.

Many of the ablest men deplore this rapid rise, note that it may expose some branches to foreign competition, and urge that consumers begin to hesitate. But the various combinations which now control many iron products have so successfully lifted prices thus far that the markets seem to lack the restraint of individual caution, and meanwhile holders of large quantities purchased for future sale or delivery want to get all they can for them. The demand, whether on old or new orders, appears large enough to sustain all advances yet made, and strikes of ore handlers and Marquette miners cause fear that supplies of Bessemer or may run short, as this is demoralized with sales of \$1.10 per ton.

Wool has been speculatively hoisted, so that sales have fallen below last year's, in August 23,000,400 pounds, of which 10,902,900 were foreign, against 25,740,850 last year, of which only 4,589,200 were foreign. The demand for dress goods is still large, and some cancellations of orders for foreign men's cloths are reported because goods do not come up to samples. At the same time the receipts from abroad continue heavy and the outcome is so far in doubt that manufacturers are not buying beyond their actual needs.

The prospect for wheat has hardly improved this week, though the price has fallen 14 cents. Western receipts have decidedly increased, but are only 3,905,905 bushels, against 6,428,294 last year, and Atlantic exports are only 1,373,856 for the week, floor included, against 3,271,118 last year. In the past four weeks Atlantic exports have been only 4,368,589 bushels, against 11,701,533 last year, and this alone is quite enough to explain the failure to maintain the sensational advance in prices, which so effectively checked the outgo. Corn is coming forward more freely, and the September price has declined a quarter cent. With the war, a great crop, pork and lard are a shade lower.

Failures for the week have been 186 in the United States, against 196 last year, and 42 in Canada, against 40 last year.

A Present to a Cruiser.

BOSTON, Aug. 31.—Four warships of the North Atlantic squadron, comprising the flagship New York, the Minneapolis, the Raleigh and the Montgomery, are at anchor in the harbor. Today the Minneapolis was presented with a solid silver service by the Minneapolis commanderies of Knights Templar, who had been attending the triennial convocation in this city, in behalf of the city of Minneapolis.

Defender Wins Defend the Cup.

NEW YORK, Aug. 31.—The third so-called trial race between the Defender and Vigilant, was a good deal of a farce. Defender won over a course of ten miles to windward, and return by 6 minutes and 12 seconds, when she could have crossed the finish line anywhere from 8 to 10 minutes ahead of the Vigilant, if she had been sailed for all she was worth. She has been formally chosen to defend the cup.

Zella Nicolaus Sensational Charge.

JERSEY CITY, Aug. 31.—Counsel for Zella Nicolaus-Ruhman has been granted permission by Judge Lippincott of the supreme court to incorporate in the suit against George J. Gould for the face value of a check for \$40,000, which the latter is alleged to have forcibly taken from his client, the additional charge of assault, on account of which she said her life was for a long time despaired of.

William L. Elkins Out For Congress.

PHILADELPHIA, Aug. 31.—William L. Elkins, the traction magnate, has been announced as a candidate for congress against Congressman Adams. This is the district formerly represented by Samuel J. Randall, the Democratic leader. Mr. Elkins is known as an anti-Quay man, while Congressman Adams took no apparent part in the recent fight.

A Woman Charged With Murder.

BLUFFTON, Ind., Aug. 31.—Joseph Harrington, a well-known resident of Elkhart, had been mysteriously shot and killed and Mabel Moore received a flesh wound, in the Indiana House. Harrington and the woman had been quarreling, and owing to this fact the latter was arrested on the charge of murder.

Twenty Cuban Filibusterers Caught In New Jersey.

WAR MUNITIONS ON THEIR TUG.

They Intended to Embark on a Steamer En Route to Cuba—A Similar Expedition Successful a Few Weeks Ago—Rifts Seized in Florida.

WILMINGTON, Del., Aug. 31.—Twenty men have been brought here from Penn's Grove, N. J., and lodged in jail, charged with violating the neutrality laws in having organized a hostile expedition to Cuba. They are still here, in custody of the United States authorities.

It has been suspected for several months that a Cuban filibustering party was at work in this city. It has been learned that they have headquarters at 717 Market street, here, and that at least one, if not more, expeditions to Cuba, have been dispatched from this city. A few days ago the United States authorities here were notified by Detective Gaylord of the Pinkerton agency in Philadelphia, that another expedition was about to take its departure.

United States Deputy Marshal Hewsen E. Lannen and several assistants, together with the police authorities, have been keeping a close watch ever since. They noticed a number of suspicious characters loitering about the cigar store in the neighborhood of the headquarters of the Junta and discovered that one of these had gone to the office of the Charles Warner company and chartered the tug Taurus to carry freight to Penn's Grove. They shadowed the tug until she left her wharf in this city. It was known beforehand by the authorities that the alleged filibustering party was to wait at Penn's Grove for a steamer from Philadelphia to take them to Cuba.

The pursuing party therefore permitted the men they were watching to load their freight and embark their passengers, and saw them sail in the direction of Penn's Grove where a number of detectives had been sent to await developments. Marshal Lannen, with several assistants, Detective Gaylord and two of his associates and a squad of police, under Captain Kane then boarded the tug Media, and sailed to Penn's Grove. There they found the party who had chartered the Taurus loitering about the railroad station and put them under arrest. When they overhauled the freight in the hull of the Taurus they found that it consisted of 27 cases of arms, a large quantity of ammunition, provisions, clothing, etc. All of this was seized and the party returned to Wilmington.

None of the prisoners have been permitted to make any statement, and it is not thought that they will be until they are arraigned in court.

An expedition very similar to this one put to sea in the tug Bertha about three weeks ago, and it is understood that its members were safely landed in Cuba.

A Washington special says: The treasury department has received a telegram from Collector of Customs Cottrell at Cedar Keys, Fla., saying that at the instigation of the Spanish consul at Tampa, he has seized, at a point 20 miles from Cedar Keys, 150 Remington rifles, a quantity of cartridges and 11 kegs of powder, which were to have been shipped to Cuba.

INDIANS FOULY MURDERED.

Official Reports Severely Condemn the Citizens of Jackson's Hole, Wy.

WASHINGTON, Aug. 31.—The department of justice has received from the United States district attorney and marshal of Wyoming the official reports of their investigation into the Bannock Indian troubles made by the direction of the attorney general. The reports are dated Aug. 23. The district attorney for Wyoming reports as follows:

"I have no doubt, whatever, that the killing of the Indian Tanega on or about the 13th of July was an atrocious, outrageous and coldblooded murder; and that it was a murder perpetrated on the part of the constable, Manning, and his deputies in pursuance of a scheme and conspiracy on their part to prevent the Indians from exercising a right and privilege, which is, in my opinion, very clearly guaranteed to them by the treaty before mentioned. "Should the prosecution be determined upon, it would be useless to commence it before a commissioner. As the law is now, we are bound to bring prisoners nearest to the place of arrest, and in this case it would be before Mr. Pettigrew, who was in the conspiracy himself."

The marshal makes substantially the same report and says the Indians were murdered, after being scared into trying to escape by threats of hanging, etc., and being led to believe that their horses and not them would be shot, if they tried to get away. Then they were shot in the back.

BISMARCK GREETED AMERICANS.

The German Veterans Call on the Aged Prince at His Home.

HAMBURG, Aug. 31.—The German-American veterans have made a visit to Prince Bismarck at Friedrichsruhe. The chief forester appeared at the gate and invited four of those in attendance to enter. Prince Bismarck, who appeared to be in excellent health, walked firmly forward to meet them, welcoming them cordially, saying that he was not able to express the joy he felt at the distance to see him. He had frequently had the opportunity of welcoming Germans from America, but today he felt especially glad to be able to greet so many of his former comrades from the other side of the water. He then invited the members of the committee to luncheon, all the members of the family of Prince Bismarck being present.

Luncheon over, the prince asked all of the German-Americans to visit the park which forms part of his estate at Friedrichsruhe. After a visit to this park the members of the delegation took up a position in front of the gate. The prince walked up and down the paths several times and greeted all the members of the delegation. He conversed with many in reference to the part that they had taken during the war with France, making many inquiries of a personal nature showing the interest taken in the German-American veterans. At the conclusion, Comrade Schlenker called upon those present to give a ringing cheer for Prince Bismarck. As all stood with heads bowed, Prince Bismarck asked them to replace their hats on their heads for a slight rain was falling and he feared they might feel the ill-effects of it. The deputation then wheeled to the right with a soldierly precision which seemed to please the prince, and cheering continuously, the German-Americans marched away.

GOLD RESERVE SAVED AGAIN.

The Syndicate Places \$1,000,000 to Counteract Today's Big Shipments.

NEW YORK, Aug. 31.—The gold shipments by today's steamships were very large. Handy & Harman shipped \$100,000, and Steinwender & Stoffregen \$150,000. Hard & Rand shipped \$250,000, and Nesslage & Fuller increased by \$50,000 their gold engagements made earlier in the week for \$100,000. Crossman & Bro. increased their shipment to \$1,500,000. Oelrichs & Co. sent away \$250,000 in gold.

These big withdrawals would bring the gold reserve below the \$100,000,000 point, but as expected, the government bond syndicate has placed \$1,000,000 gold in the sub-treasury, so as to maintain the reserve above \$100,000,000.

Editor McKelway on the Third Term.

LONDON, Aug. 31.—St. Clair McKelway, editor of the Brooklyn Eagle, has a letter in The Times this morning in which he declares that if President Cleveland is again nominated it will be quite different from any former movement in favor of a third term. It will be a popular protest against the limit, the earlier reason for which has ceased. It will be the people's act against conspiring politicians, Mr. McKelway concludes.

Socialist Hardie in Chicago.

CHICAGO, Aug. 31.—James K. Hardie is in Chicago. He was warmly greeted by a committee and taken to the Great Northern hotel. There, in a banquet hall filled with chairs, he talked for an hour to 20 persons, two of whom wore scarlet ribbon bows in their coats and one of whom gave the agitator a big bunch of red roses, tied with a scarlet ribbon.

Strung Up the Negro.

JACKSON, Miss., Aug. 31.—A few days ago the 14-year-old daughter of A. Mulligan, a prosperous farmer living near Westville, gave birth to a negro child, and simultaneously one of the negro farm hands took to the woods. He was pursued and captured by a large crowd and lynched.

TO FIGHT FOR IRELAND.

Great Enthusiasm Over the Approaching Convention to Be Held in Chicago.

NEW YORK, Aug. 31.—The friends of the new Irish movement to be launched at Chicago by the great international convention of men of the race, to be held there toward the close of the coming month, are getting down to active work in this city. A secret meeting of the committee of arrangements has been held here. Among those present were William Lyman, General Michael Kerwin, Counsellor M. J. Landon, Captain John Kirwan, P. J. Cody, Judge Shannon, New Rochelle; M. D. Gallagher, John F. Keirney, O. J. O'Reilly, John P. Sutton, National Acting Secretary Boland. Communications were read from 85 nationalist clubs and other Irish societies in the city in relation to the securing of credentials for the convention. There were letters in favor of the movement and pledging its support in its action for the securing of Ireland's independence, from James Everard, millionaire; Police Justice Bernard F. Martin, Judge Wanhope Lynn, John D. Carroll of Brooklyn, Secretary of the Catholic Benevolent Legion, and others.

Encouraging words were also had from various other sections of the country—from O'Brien J. Atkinson of Detroit, O'Neill Allen and R. W. Holan of St. Louis, Frank Agney of Chicago, Mayor Fitzpatrick of New Orleans, Judge Cooney and Dr. M. O'Toole of San Francisco, Judge Wilber of Philadelphia. The leaders of the movement say they are confident that not since the Fenian days has there been anything to equal the enthusiasm that will be created at the coming convention, which will be the largest of its kind ever held in this country. Delegates have arrived from even far away Africa, from the Argentine Republic and South American countries.

THE FRENCH PAID INDEMNITY.

China Settled Some Riot Claims—Our Case Not That Far Along.

PARIS, Aug. 31.—Official advices received here are that the Chinese government has granted the French missions in the province of Sze-Chuan an indemnity of 4,000,000 francs.

A Washington special says: The state department officials say that China's agreement to pay France 4,000,000 francs indemnity on account of the anti-missionary riots at Sze-Chuan is due to the fact that France decided to prosecute her claim alone and independently of the United States and Great Britain. The French had large property interests in that section, and the sum agreed upon is considered as entirely reasonable compensation for the loss sustained.

The authorities here are satisfied with the progress making in the settlement of the claims of this country and of England, which are being pressed jointly, but say that the point has not yet been reached in those negotiations, where the amount of indemnity could be suggested.

A Leper at Large.

ST. LOUIS, Aug. 31.—A leper whose malady was well defined and pronounced genuine by leading physicians and the health authorities, has left St. Louis for parts unknown. He came here from southern Texas six months ago. The health authorities had no where to send him, the post house being occupied by smallpox patients. While the officers were discussing the dilemma he left town.

Bissell Not Offered a Judgeship.

MARION, Mass., Aug. 31.—Ex-Postmaster General has joined his family, who are spending the season here. Mr. Bissell says there is no truth whatever in the report that he has been offered the place on the United States supreme court bench made vacant by the death of Justice Jackson.

Cholera in Honolulu.

SAN FRANCISCO, Aug. 31.—The steamer Monawai, which has arrived from Australian ports, did not stop at Honolulu as usual. When off that port the steamer was hailed by the American consul in a small boat, who announced that cholera had broken out in Honolulu.

A party of young people spent last evening pleasantly at the rooms of the Alvin club on Market street.

The rains have done little to the river beyond swelling it slightly. The long expected rise is not yet in sight.

Some of the Liverpool boys who attended the Steubenville races failed to come in on the right side of the financial end.

Chief Gill took George Heckathorn to Lisbon this morning, and he will be confined in the county jail awaiting the action of probate court.

A party who attended the Buffalo Bill show last night spent a few hours very pleasantly dancing in the rooms of the Columbia club afterward.

The Steubenville presbytery meets next Monday at Richmond, Jefferson county. The First Presbyterian church of this city will be represented by William Fisher.

Bert Irons, the wheelman, is not riding hard these days because his old enemy, stomach trouble, has appeared to give him pain and inconvenience. He does not think the attack serious.

Lisbon sent an unusually large delegation to the show yesterday, and those who were here said the attendance would have been much greater if the rain had stayed away a few hours longer.

An old lady, very large and very deaf, came near being run down by a wagon on Franklin street yesterday evening. She insisted on walking in the road, and as several wagons were passing at that moment she had a narrow escape.

It was noticed during the show yesterday that Buffalo Bill is getting to be an old man, his once glossy mustache having turned a silvery white, and a suspicious looking bare spot appears on the top of his head. He is 64 years of age.

The machinery for the Virginia, the new packet that is to ply the Ohio in the Pittsburgh-Cincinnati trade, will soon be put in position, and the next rise will see the boat in service. It will be one of the finest boats ever seen on the river.

Three amateur plays are in course of preparation by as many different parties of young people, and will be presented in due time at the Grand. The plays are standard, and as the companies will be well trained some creditable performances are expected.

Word from Mt. Pisgah today says that D. J. Smith is very ill, and fears are entertained that he can not muster strength to bear the sickness. He suffers from typhoid fever in a dangerous form and is very weak, having been confined to his home for several days.

The arrangements for the flag raising at central school building are almost completed, and provide for a pleasing entertainment. Louis W. Spencer, state councillor, will be here on Thursday evening, and will attend the regular meeting of General Thomas council.

A letter from Doctor Lee to a member of his congregation here says that he will be home in two weeks, and is now spending a few days at the cottage of Reverend Talmage at the seashore. He is preparing a lecture that will be given on the opening of the church and will be illustrated by stereopticon views of masterpieces showing scenes from the Bible.

The sixty-second annual conference of the Pittsburg district of Methodist Protestant church will begin the work in Allegheny next Wednesday. A large number of ministers and laymen will be present, among them being Reverend Whitehead and S. A. Shepherd, who will represent the local church. A number of Liverpool people will visit the conference during the week. The conference is one of the strongest in the denomination.

"No more political life for me when this term is over," remarked a well known member of council to a reporter. "I have tried to do what was right, but as usual I have been condemned and cursed until my wife is almost wild. When I get out of council I will quietly retire to private life, and that is all there will be to it. My wife would not let me endure another term for all the honor in the town, and you know I must do what she says."

There was the usual complement of drunks on the streets last night, but an unusual number of drunken boys. Three or four boarded a car for Wellsville in the Diamond, one of them so far under the influence of liquor that he could not sit erect without help. A youngster who had looked upon the cup when it held something more dangerous than water was declaring on Washington street at a late hour that he could lick any man in town, but some friends hustled him in a wagon, and he was hauled toward the Pennsylvania line.

That
Black
Dress
Goods
Sale

We bought the goods at less than they were worth, advertised them as bargains and the people did the rest. We sold more Black Dresses Saturday and Monday than we usually sell in a month. Why? Because we have the goods to back up our Adds. We made preparations for this sale; it was not a case of stealing an other man's powder, or, in other words, taking advantage of another firm's advertising to try and help our sales along. It is a genuine sale of BLACK DRESS GOODS at prices that others cannot duplicate. Try it and see. We know what we are talking about.

About Prices.

We advertised Black Dress Goods as bargains. What we mean as bargains is at less prices than you can buy them at other sales. We intend making our word good; visit the sales, get prices and widths, then come to our store if we do not quote you less prices than you have had; we will admit at once that our sale is a fake, and that we use the Add to gull the people.

All This Week.

We intend running this sale all week. The prices are good until Saturday night. If you have any desire to own a Black Dress, at a guaranteed saving of 20 per cent, come and buy it this week. Henriettas, Storm Serges, Shower-proof Clothes, Fine Serges, Mohair, Brocades, Wool and Mohair Mixtures—in fact, we have the latest ideas in Dress Goods, and we are selling them. Watch this space Saturday for pointers on next week's bargains.

IMPORTS OF CROCKERY.

How They Are Faring Under the Wilson Law.

The following imports and exports of crockery and glassware are for the month of June, the latest period for which the official figures have been compiled by the Treasury Department. The dutiable imports of china, porcelain, parian, and bisque, earthen, stone, and crockery ware, not decorated or ornamented, amounted in June to \$178,294, an increase over last June when the imports were only \$110,911. The year's total also shows an increase, being \$2,053,759 this year, as compared with \$1,258,881 last year. The dutiable imports of china, porcelain, parian, and bisque, earthen, stone, and crockery ware, decorated and ornamented, amounted in June to \$600,198. Last June the imports were much less, being \$305,173. The total for the year amounted to \$6,585,060, against imports to the value of \$5,222,075 last year. All other earthen, stone and china ware imported in June amounted to \$18,949, against \$14,159 worth imported last June. The imports for '95 show a falling off for the year, being \$316,615, as compared with \$393,481 for last year. The domestic exports of earthen and stone ware for the month of June amounted to \$9,325. Last June they were nearly the same, being \$9,143. The total for the year shows a slight increase, the exports footing up \$118,205 this year, as compared with \$113,080 worth exported last year. The domestic exports of china ware during June were valued at \$3,474, those exported last June were valued at \$943, showing quite an increase for the month of June, '95. The total for the year also shows an increase, being \$22,816 this year, as compared with \$14,357 worth exported last year. The dutiable re-exported of china, porcelain, parian and bisque, earthen, stone and crockery ware, not decorated or ornamented, amounted to \$1,696 in June. Last June the re-exports were \$496. The twelve months total shows an increase, being \$4,051 for this year, against re-exports valued at \$3,406 last year. The dutiable re-exports of china, porcelain, parian, and bisque, earthen, stone and crockery ware, decorated or ornamented, amounted to \$478 in June. Last June the re-exports were \$253. The years total shows an increase as the re-exports amounted to \$16,160 this year as compared with \$12,490 last year. All other earthen, stone, and china ware, re-exported in June amounted \$25, against \$572 worth re-exported in June. The total for the year footed up \$4,738, quite an increase over last year, when the re-exports were \$2,985.—Ex.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at River Junction she was brought down with pneumonia, and the grip. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at T. L. Pott's drug store. Regular size 50 cents and \$1.

THE ELECTRIC SEPARATOR.

Two Will Be Put in at the Sebring Pottery at Once.

The electric separator of Whitacre & Wolfe will soon be given a practical trial in a pottery in this city the first one to be sold having been purchased by the Sebring company and will be put in at their plant on Second street at once. In speaking of the invention to a News Review man Mr. Frank Sebring said:

"The device certainly takes the iron particles out of the clay, and that is what we want before we can make ware that will stand out as the best of stock. All we have now are the ordinary magnets, and while they catch much of the iron that is in the slip there is no denying that some of it is still in the clay when it is made into ware. I saw the machine work in Mr. Whitacre's laboratory, and it struck me at that time that it did the work they claimed. The clay after passing through the pipe was remarkably free from iron, so much of an improvement over the slip found in every pottery where magnets are used that the difference was plainly seen. Ware made from clay so free from iron as that passed through the machine can not but be better than the ordinary white granite, and we looked at it in a business light. If the iron could be taken out in that laboratory it could certainly be extracted at our pottery, and we are going to have machines added to our equipment in the slip-house at once. The ware, I think,

will be more solid, and better able to stand rough usage. It will certainly be of better color, and I believe we can bring it through the kiln at a smaller loss. This iron has always caused trouble to the manufacturing potters because so little is known of it. Occasionally you find a car of clay with very little iron in it, and then you will get half a dozen cars that are full of the stuff. Each particle allows a line of fracture in the dish, and makes it more liable to break than if there were none.

"We expect to put in two of the machines at once. One will be for the glaze. With these we think that the proportion of iron in the slip will be reduced to a minimum, and it will be a great improvement over the old system."

Messrs. Whitacre and Wolfe are getting their business in excellent condition, and are more than pleased with the tests of the machine.

NOTICE.

Monday being a legal holiday the office of the Potters' Building and Savings company will be open from 7 to 9 morning and evening.

Packed to the doors, and standing room at a premium, was the way C. W. Warren's excellent company, opened a week's engagement at the cosy little play house yesterday in the melodrama, "The Convict's Daughter." Each part was in excellent hands, and the company made a favorable impression. The play is remarkably well-staged, and the company surprised all who heard them, by their strength and ability to perform the difficult roles. Frederic Seward, in the character of Curly Miller and James Willoughby, developed considerable strength.—Reading Herald.

All these remedies are guaranteed to do just what is claimed for them and the dealer whose name is attached herewith will be glad to tell you more of them. Sold at Pott's drug store. 1

Call It a Craze.

AN ALARMING STATEMENT CONCERNING WOMEN.

HOW BAD HABITS ARE FORMED.

The New York Tribune says: "The habit of taking 'headache powders' is increasing to an alarming extent among a great number of women throughout the country. These powders as their name indicates, are claimed by the manufacturers to be a positive and speedy cure for any form of headache. In many cases their chief ingredient is morphine, opium, cocaine or some other equally injurious drug having a tendency to deaden pain. The habit of taking them is easily formed, but almost impossible to shake off. Women usually begin taking them to relieve a raging headache and soon resort to the powder to alleviate any little pain or ache they may be subjected to, and finally like the morphine or opium fiend, get into the habit of taking them regularly, imagining that they are in pain if they happen to miss their regular dose."

In nine cases out of ten, the trouble is in the stomach and liver. Take a simple laxative and liver tonic and remove the offending matter which deranges the stomach and causes the headache. Dr. Pierce's Pleasant Pellets are composed entirely of the purest, concentrated, vegetable extracts. One Pellet is a dose; sugar-coated, easily swallowed; once used, always in favor. They positively cure sick headache and remove the disposition to it.

Mr. E. VARGASON, of Otter Lake, Lapeer Co., Mich., writes: "I not infrequently have an attack of the headache. It usually comes on in the forenoon. At my dinner I eat my regular meal, and take one of the two of Doctor Pierce's Pleasant Pellets immediately after, and in the course of an hour my headache is cured and I feel better every way. I have taken them—no worse, as is usual with these pills. 'Pleasant Pellets' are worth more than their weight in gold, if for nothing else than to cure headache."

Forge and Furnace of the Future.

The opinion is expressed by a writer in The Mechanical News that the forge and furnace of the future will consist of a lead lined glass or porcelain vase, or opala, filled with cold acidified water, to which is connected a strong positive conductor, the forge and outfit being rendered complete by a pair of tongs with insulated handles attached to a flexible negative conductor. According to this plan, the smith seizes the piece of iron which is to be manipulated with the insulated tongs and plunges it into the sour water, which begins to boil and bubble the instant it comes in contact with the iron, the latter, in a remarkably short space of time, turning to a red and then to a white heat, ready for the work of the smith. So rapidly indeed is the heating done by this means that the water and the portion of the iron not immersed in the water are but slightly warmed. The principle involved in this process is of a simple and well known character—resistance producing the light and heat—it being found that enormous heat can be produced by such a method, much greater, in fact, than is necessary to extract iron from the most refractory ores. It is remarked that the value of such a process will be especially exhibited in the more complete and rapid handling of heavy iron and steel plates and bars requiring to be hammered and welded—more valuable still for tempering purposes, as the necessary heat for the immersed portion can be so quickly obtained, while the remaining portion holds comparatively cool.

CONSUMPTION.

Care of the Patient, That His Sufferings May Be Lessened.

The successful treatment of consumption—and by this is meant making the sufferer better able to bear his burden, if not actually lifting it from his shoulders—is largely a question of nursing. If the disease has already gained a foothold medicine in most instances is of no avail except in postponing the evil day, and even if it were otherwise a few general rules would be just as essential to insure the comfort of the patient while recovery is going on.

In the first place, then, we must understand exactly the condition of the consumptive, not so much by ascertaining the location and extent of his disease as by familiarizing ourselves with his temperament, his likes and dislikes, and, above all, with his power of endurance and resistance.

If we will bear these things in mind we may be able to do all that is possible for the sick one—namely, to enable him to withstand the onslaught of the disease until nature shall gain the controlling hand. So successful is this method of treatment that it often results in a complete or at least a temporary cure.

Consumption is one of the most devastating of diseases. Not only does it attack the lungs, but the action of the nervous system is sooner or later seriously interfered with, the digestion impaired, and the simplest form of excitement renders even the circulation of the blood dangerous from being overactive.

We shall come nearest to striking at the root of all these troubles if we direct our energies toward limiting the frequency and severity of the cough, and in this we have not only to follow the advice of the physician, taking care that his directions are exactly carried out, but we must give careful attention to nursing.

To prevent the first paroxysm of coughing, which is usually incited in the morning by the exertion of rising, a warm cup of tea or an egg nog should be taken before the patient leaves the bed.

A glass of something warm, like hot milk or gruel, should also be taken before retiring, and plenty of time should be allowed in preparing for the bed. The patient should sleep in blankets, and a glass of warm drink should be placed within reach in case he should wake through the night.

If the presence of food in the stomach causes the reappearance of the cough after meals, some suitable preparation of pepsin should be used to hasten the digestion, and an hour or two's rest should be taken immediately after the meal.—Youth's Companion.

AN AVENUE OF IDOLS.

A Double Row of Japanese Buddhas Which Cannot Be Counted.

Close to this interesting place is the avenue of images, representing the Amida Buddha. The idols vary in size, but are similar in design. There are several hundred of them altogether, and they sit facing one another in two long rows. We asked the little Jap who brought us to the place how many of them there were. In an awed whisper he replied, "Nobody knows." Then he told us how impossible it was to count them. Each image was made unsightly by having numbers of little bits of paper stuck on to it and chewed bits of paper which had been spat at it. The object of this disfigurement we failed to discover, though our friend Hojo informed us they were put on by the young priests, a part of whose novitiate it was to attempt to count the Buddhas.

There is evidently something wrong with these idols, for no one has ever been able to reckon them up the same twice over, in spite of sticking a piece of paper to tick each one off. Of course two unsupervised Englishmen were not to be humbugged by native stories, so M. (my traveling companion) and I, thinking the whole thing ridiculous, decided to count the mysterious images. We started on co-operative lines, each taking a side of the avenue. Our efforts, however, were fruitless, for we had not numbered off more than a dozen each, before M. (whose eyes were not so good as they had once been) shouted across to me: "I say, I saw one of them on your side moving. I'm certain I did. They're uneasy. Let's give it up." This interruption of course upset all my calculations, but we soon came on the moving image, which turned out to be nothing more than one of the old Frenchmen, seated peacefully among the statues and looking in his white clothes for all the world like a jolly, fat, old Buddha.—Gentleman's Magazine.

4,000 Miles With a Wheelbarrow.
In 1878 Lyman Potter of New York state performed the prodigious task of pushing a common "paddy" wheelbarrow across the continent. He started from his home on Dane street, Albany, on the morning of April 10, 1878, and arrived in San Francisco on the afternoon of Oct. 5 of the same year, being almost exactly 178 days (five hours and three minutes over) in performing the wearisome feat. Potter was a shoe-maker, and the trip was the result of a wager made by some friends who believed that such a trip would occupy at least 200 days. The wager was \$1,000, but Potter made between three and five times that sum advertising for different parties along the route. The wheelbarrow was made specially for the use to which it was put and weighed but 75 pounds. The distance traveled by Potter was exactly 4,085 3/4 miles.—St. Louis Republic.

Minister Ransom in More Trouble.
WASHINGTON, Aug. 31.—Minister Ransom's troubles have not ceased. First his salary was withheld for months, then his appointment as minister was declared illegal and the office vacated. It was thought that his appointment by the president on Aug. 24 would end the complications, but Deputy Auditor of the Treasury Willie has decided that Minister Ransom cannot draw a salary until he is confirmed by the senate.

MAYOR'S NOTIFICATION

SUNDAY OBSERVANCE.

WHEREAS I have been requested to strictly enforce the provisions of the State law relative to the prohibiting of common labor on Sunday. Therefore I call the attention of the citizens of East Liverpool to the following section of the statutes which will be enforced in both spirit and letter.

SECTION 7035—Common Labor on Sunday.—Whoever, being over fourteen years of age, engages in common labor on Sunday (work of necessity and charity excepted) shall, on complaint made within ten days thereafter be fined not more than five dollars; but this section does not extend to those who conscientiously observe the seventh day of the week as the Sabbath. Nor shall it be construed so as to prevent families emigrating from traveling, watermen from landing their passengers, superintendents or keepers of toll bridges or toll gates from tending the same, or ferrymen from conveying travelers over waters.

The law construes that a merchant to wait upon his customers and to secure and sell his wares is the common labor of a merchant. There is a broad distinction between this and the case of a single sale out of the ordinary course of business.

Works of necessity within the meaning of the act are not limited to labor for the preservation of life, health or property from impending danger, the necessity may grow out of or indeed be incident to the general course of trade or business and yet be within the exception of the act.

By the phrase, "common labor," is meant ordinary manual labor as contradistinguished from intellectual.

Given under my hand and seal this 30th day of August 1895.

DRY GOODS FOR FALL SEASON OF '95. AT THE PEOPLES STORE.

Fifth Street and the Diamond.

H. E. PORTER.

We respectfully ask the ladies of East Liverpool and vicinity to visit our store this week, and see the new FALL GOODS just opened. They consist of an elegant line of Dress Goods and Dress Trimmings—the first novelties of the season. We have also for your inspection our first lot of Ladies' and Misses' Jackets, and a magnificent display of Ladies' Capes in velvet, cloth and silk. The prices are remarkably low for quality and style of goods now awaiting your approval and inspection.

HOW THEY WILL MARCH

Chief Marshal Blake Issues an Order.

BUSINESS MEN ARE INVITED

The Formation Of the Parade Made Known—The Different Unions Will Form In Line According To This Announcement—All Things Are In Readiness.

W. V. Blake, chief marshal of the Labor Day parade, has issued the following order, and desires that all unions govern themselves accordingly:

"Monday will be Labor Day to all intents and purposes. Some people are running away with the idea that those who participate in the parade are union men only. Mistaken idea. The ranks are open to all, every man who labors for his living is welcome, everyone who has his living made for him is welcome. Come all and join our ranks on Monday. Do not the American Mechanics observe the glorious Fourth of July? We celebrate with them. The valiant old fighting patriots have their parade on Decoration Day. Long life to them. The different political parties have their parades. Our employers have their day at Columbian Park. Why not labor celebrate at least one day in the year. The visitor will be in the van of the parade. President A. Hughes will take them in charge, followed by the Glass Workers; Mr. Rigot or Ritchie will see them in line. The kilnmen will follow and marshaled in line by Mr. Rit Meanor and Mr. Hugh P. McCurran. The Pressers, Turners, Handlers, Jiggermen, Dippers, Saggarmakers, Packers, Coopers, Typographical union, Carpenters, etc., will have the attention of Messrs. Columbus Martin and John Powell, who will place them in their respective positions. The city council will follow the above in line, followed by the knights of the razor, fire brigade, merchants, etc. Mr. Charles Berg will attend to the city officials. The tonorial artists and the rest of the contingent will also receive Mr. Berg's attention. Haynes' and Manley's bands will render inspiring music along the route of procession which will form on Fourth street, right resting on Market, 8 a. m.

W. V. BLAKE,
Chief Marshal.

Mr. Blake is especially desirous of having the business men know that the invitation to them is broad, and they are urged to take part in the parade. The more the merrier and a great turn out is expected. All the preparations for Labor Day are complete, but Chairman Powell has called a meeting of the general and sub-committees for this evening in order that all business may be wound up and everything made ready. It is thought that there will be a great crowd in town, and arrangements are being made to entertain them.

THOUSANDS SAW IT.

There Was a Big Crowd at the Buffalo Bill Show.

Buffalo Bill and his show left the city last night, taking with them a pocket full of Liverpool gold, and leaving behind many pleased patrons of their performances.

The crowd that saw the show yesterday afternoon was estimated anywhere from 8,000 to 12,000 people, and it was recorded that 5,000 were there at the night session. Those who did not see the show at Chicago were treated to what is undoubtedly the most novel performance before the public, but as few new features have been added since the rough riders coursed around the arena at the big fair it was rather tame to many persons in the audience. One portion of the enclosure yesterday afternoon was deep with water and last night it was a sea of mud. This had little effect upon the Arabian acrobats, one of whom continued his performance through the midst of the water much to the delight of the audience, and none whatever on the riders. The acrobats attracted no end of attention because they were a new feature and carried out their part of the program very well. The fearless riders attracted general admiration, and the manner in which they galloped about the slippery track served to prove that they were not alone fair weather soldiers. The chorus of Cossacks, together with the dancing of two of their number, was especially good, and the

riding of the Indians, their long legs sticking closely to the horses' sides was a feature that attracted no end of applause. Colonel Cody was loudly applauded when he appeared on a magnificent bay horse, and the American cavalry, with Old Glory in place, got its share of popular approval. Annie Oakley and John Baker did some remarkable shooting, but the riding was the principal feature of the performance. The roof of the grand stand at the ball ground contained an interested audience during the afternoon and evening, and the glass works had its share of the crowd. They were afforded a good view of the performance, and saw as well as the people who paid. When the show was over there was much confusion on Jethro street, horses, heavy wagons, electric cars and carriages being blocked several times. There were many narrow escapes for pedestrians, but as far as could be learned no one was hurt.

AT HIS OLD TRICKS.

The Man With a Knife Is Slashing Dresses Again.

The individual who has made himself odious by cutting dresses whenever he has an opportunity was very much in evidence on the show grounds yesterday afternoon. He had a knife in the sash, and some excitement was caused when it became noised around that a little girl, whose name was not learned, had been a victim. Her dress had three long cuts in it. A little later another dress was discovered in the same condition, and in half an hour there was more damage of a similar character. The man was not seen, except a person who cut his finger nails with a wicked looking knife near the doorway a few minutes after the discovery was made is the guilty one. The police have absolutely no clue to the party, so carefully does he guard his actions.

Miss Maggie Colclough, of Minerva street, was in company with her father at the show when the cowardly and wanton miscreant cut her dress literally into ribbons. It is a pity the police can not apprehend the rascal, but Mr. Colclough will make it warm for him if he discovers his identity.

ONE TOO MANY.

James Sharp Wants a Change in His Family.

James Sharp, a resident of Third street, called on Mayor Gilbert this morning for the purpose of finding ways and means to rid his home of a step-daughter whom he does not like. He said his wife's daughter would not work, and had taken on such great airs that he feared he would have to hand over to her the management of the house. He did not want this state of affairs, and to keep his own position and dignity believed he should be rid of the daughter. Ways and means were what he wanted so that Sharp can carry out his cherished design.

Mrs. Sharp also called on the Mayor, and told another side of the story, and the magistrate decided that he would have nothing to do with the case inasmuch as he was out of all family quarrels.

THEY LEFT TOWN.

The Police Were Too Much For the Sharpers.

The crowd of pickpockets and sharpers in town yesterday was made up of three men and an equal number of women, all of whom understood the various intricacies of their dangerous calling. The police and railroad detectives kept them well in sight during the afternoon, and they at length decided to leave town, all going to Wheeling on the same train. They were undoubtedly a dangerous crowd and the bungling work of the morning alone prevented the loss of valuables to the crowd. The gang were under strict surveillance the whole time they were in town.

THAT NOTIFICATION.

Mayor Gilbert Issues the Official Order.

Mayor Gilbert today issued the notification instructing the general observance of the Sabbath, and quoted a little law in order that the public may know just what is expected of them. There was a general stir in the city when it became known, but the owners of places affected in several instances informed a reporter that they would obey the law.

John Dabbs Will Get Well.

John Dabbs, the East End boy who investigated the interior of a whiskey barrel with a match the other day, is improving rapidly and will get well. The hole in his head is not as dangerous as the attending physician at first believed, and he will recover.

TEARS FOR THE BOYS

The Girls Were There to See Company E Depart.

THEY MADE A GOOD SHOWING

Captain, Supplie With Lieutenants Finley and Johnson and 42 Non-Commissioned Officers and Enlisted Men, Departed For Camp Howe This Morning.

A disinterested party standing at the passenger station this morning as the bold boys of Company E marched along the platform might have believed that all the pretty girls in town were there to bid them goodbye, but it was only a part of them.

The soldiers gathered at the armory at 8 o'clock, and the busiest man in town was Captain Supplie. All the hard work had been done before, the mess chest was packed, and the baggage was ready to be forwarded to Newark. The coaches were awaiting the occupants, transportation was secured, and all was in readiness. The boys had also been preparing for the event. Buckles shone like burnished gold, the neat leggings were firmly laced in position, and the new cantees were as proudly worn as though they were a distinctive badge of honor. Captain Supplie was ably seconded by Lieutenants Finley and Johnson, who found abundant work to keep them busy during the early hours of the morning. At length all arrangements were complete at the armory, and with every one feeling blythe and gay the company marched to the station, where they were allowed to say the last sweet words to the waiting bevy of girls.

There was here and there a tear, but the majority knew the boys were bound for a week of pleasure, and laughingly gave them hints that would make the rough life of an instruction camp less hard to bear. The young soldiers bore up very well under the parting, and more than one twinkle showed that the boys expected other girls when they got to Newark. The company looked exceptionally well, and when the train pulled out cheered heartily. They take the Panhandle at Mingo, and will be in camp at 1:30 this afternoon. By evening they will be settled, and in good form by morning. They will be commanded by Colonel Gyger, of Alliance, and the camp will go down in history as Camp Howe. Captain John Simms went with the boys, and Lieutenant Sinclair was in the ranks as a private. Every man carried a day's rations, and there were more chickens concealed in the pockets of those spacious haversacks than could be found in a day's travel.

HOME FROM ENGLAND.

Liverpool People Had An Enjoyable Summer.

A tired yet happy crowd of Liverpool people returned yesterday afternoon from New York, where they landed a few days ago after having spent the summer in England. The party are Major Adams and wife, Miss Etta Hume, Mrs. Mike McGiever, Mr. and Mrs. Ted Wooliscroft, Will Cook and Edward Hancock. They have been in various parts of the country, but in the main the time was spent in Staffordshire, where they have friends and relatives in abundance. Almost all the Liverpool tourists are home now, only a few being left on the other side.

BURNED THE UMBRELLA.

A Mysterious Fire In An Uptown Restaurant.

There was a mysterious fire in an uptown restaurant last night. Some people from near Sallineville had been to the show, and after it was over were peacefully eating a lunch and discussing the performance when some one detected the odor of burning silk. A search was made, but nothing could be found until a spark was seen to fall from an umbrella hanging on the wall. Examination showed the whole top of the umbrella burned away, probably from a cigar butt dropped into it by some evil-minded person.

DEFERRED THE DECISION.

After the Mayor Had Heard a Long Argument.

Mayor Gilbert this morning heard a long argument from the respective attorneys upon whether a jury trial should be granted in the case of McCain against Rinehart, but reserved his decision until next week. The case is that in which complaint is made because Harrison Rinehart places his vehicles in the street.

Well Patronized.

The Diamond well was one of the best patronized institutions in town yesterday, and many were the remarks heard about it. "Don't drink that

stuff there's dead rats in it," exclaimed one country matron as a young hopeful was about to take a drink, and the boy sniffed suspiciously as he walked away. "That woman is crazy. This is the finest mineral water in this part of the county," said a Wellsville man who heard the conversation, but some of the people dropped the cups and walked away.

A BIG DAY.

The Street Car Company Did a Good Business.

Superintendent Andrews of the street railway wore a smile of pleasure today because of the business done on the line yesterday. As near as he can estimate from the reports of the different cars the company carried over 10,000 people. It is one of the biggest day's business ever observed in town.

The show men passed a compliment on the efficiency of Superintendent Andrews by the oft repeated assertion that they never saw so many people moved in such a short time without accident.

ANOTHER TRIAL.

The Street Sweeper Seems to Work Very Well.

The street sweeper was out this morning and was viewed by a crowd of people interested in clean streets. It was suggested that the sweeper start in the gutters and sweep the dirt in the middle of the street instead of starting in the center and sweeping towards the gutters. The improvement would gather the dirt so that the wagon would have only one trip to make along the street instead of two, as at present.

PLANTED THE POLE.

The Flag Staff at the School Building Is In Position.

The flag staff at central school building was planted this morning, and makes a good appearance. It is painted white, and stands high enough to be seen far above the trees. It is made of pine, and so well spliced that it will stand many a strong storm. The raising was done by an ingenious arrangement of ropes and a derrick, with a few men to help it along. A crowd gave advice while the work was in progress.

PICKED HER POCKET.

Mrs. Nancy Allison Was Touched by a Thief.

When the parade was passing along Fifth street yesterday afternoon one of the most interested spectators was Mrs. Nancy Allison, who conducts a boarding house on Second street. She had her pocketbook where she thought it was safe, but when she emerged from the crowd she found it was gone. The matter was reported to the police, but they had absolutely nothing on which to work, and the light fingered thief got away.

A GOOD HEN.

It Was a Wonder as an Egg Producer.

A well known city official who keeps chickens killed a fine, fat hen today, and was surprised to find in its interior a marvelous crop of eggs. There were three well formed eggs covered with hard shell, and a saucer full in course of development. "Young eggs," he called them. He has had more or less to do with chickens all his life, and never before found such a gold mine in one hen.

IN THE BALANCE.

The Early Closing Movement Hangs That Way.

Some business men found a little time today to do missionary work in the cause of early closing, but as one expressed it the plan hangs in the balance, and no man can tell until Monday evening how it is all going to end. At the meeting the question will be decided for all time, and even the most faithful friends of a short day for clerks are fearful that it will be killed.

A Good Day For Carey.

The friends of George Carey smile when they greet each other today because the big first baseman of the Baltimore club is playing good ball. He had 26 put outs to his credit in the games against Pittsburgh yesterday, and he made a run. He is batting much better than in the past, and they say it is because he has thrown away the heavy 19 pound stick he used so long, and is now swinging one of lighter weight.

Gone Home.

Mr. and Mrs. G. Y. Anderson and baby left on the morning train for their home in Cleveland after a month's visit with their parents of Walnut street and Thompson avenue. George is much appreciated in the World office where he holds a responsible position.

DRUNKS WERE PLENTY

The Police Had Their Hands Full Yesterday.

A DISGUSTING CASE ENDED

Mary Anne Humphries and J. D. Thompson Caught in a Stable—One John Smith On the Docket—Other Cases of Minor Importance Before the Mayor.

The police had their hands full looking after the crowds yesterday, preventing people from falling under street cars and horses, watching for thieves and pickpockets, and keeping an eye upon the unusually large number of drunks.

Officers Earle and Jennings made an unusually good capture when they landed a woman giving her name as Mary Anne Humphries and a man, who said his name was J. D. Thompson and his residence Neglev.

The pair were in a stable when located by the police, and were surprised when informed that they must go to jail. They were locked up for the night, and given the attention of the mayor this morning.

Thompson was called before the tribunal, and pleaded guilty to a charge of disorderly conduct. He was fined \$6.67, and gave good security for the amount.

An East End man about whose identity there was some mystery was in jail this morning, and the mayor could not understand what was expected of him. He was held until the arresting officer made out a charge but as none was forth coming he was released. The man was arrested by the patrolman, and he simply answered an alarm.

A man who gave his name as John Smith, but probably owned some other was dead drunk in the Midway last night when the police found him. He said he was from Lisbon, and gladly paid the assessment of \$6.60.

Hamlin Bourne was so drunk last night that he could not contain himself, and raised such a row that the police provided him with the soft side of a board at city hall. When summoned to answer the call of justice this morning he could not give a valid excuse for his conduct, and got \$6.60 for his fun. The fine was paid and Bourne released.

Adjusted the Loss.

The adjustors who have been examining the damage done the East Liverpool pottery decided that the building was damaged to the extent of \$1313. They acknowledged that they knew nothing about stock, and appraisers will be appointed next week. The work of repairing the damage will begin at once.

Two Judgments.

The Canton Buggy company today took judgment in the court of Squire Rose against Joseph Walters for \$113.50.

Henry W. Adams got judgment in the court of Squire Rose today against J. J. Langly for \$51, a bill for house rent.

All On the Scratch.

Wheelmen who have been looking up the rules of the L. A. W. say that Class A men can not ride in handicap races unless the district handicapper has decided on the handicaps. This may have some effect on the races on Monday, but good races are assured.

Masked the Wheel.

A bicycle rider became tangled in a crowd on West Market street last night, and collided with the wheel of a heavy wagon. He was thrown to ground, and his machine so badly broken that he carried it away.

The Firemen In It.

Chief Adam has received for the fire company an invitation to parade on Labor Day, and the department will turn out. All the members are requested to be prompt, as there must be no delay.

Back From China.

Fung Wah, the celestial who opened the first Chinese laundry in the city, is back from China, where he spent several years, and was shaking hands with his friends here today.

The Trestle Is All Right.

The East End trestle on the electric line has been made safe in every particular, and the crowds can be carried on Monday without danger to anyone.

A Foot Race.

Fred Hulme and John Webb will run a race of 100 yards at the East End track this evening for \$25 a side. James Dunkerley is the referee.

—Miss Alice Goodwill, of Parkersburg, has returned home after a pleasant visit with friends in this city.

THIS WEEK —WE CALL ATTENTION TO— 3-SPECIAL DRIVES-3

Don't Smile When We Tell You
the First on the List Is
A Blanket Drive.

We admit that even to talk of Blankets these hot days gives one a tired feeling, but nevertheless when we tell you there is a saving of at least a dollar to a dollar and a half a pair in these blankets for you we know you will be very much alive to your own interest in the matter. Cold weather is ahead of us all right.

\$3.50 a Pair

Is the hot weather price of the case of Blankets we propose to make a run on this week. They are pure wool country Blankets, large size, good weight, and come in white, red, gray and plaids. If they don't give you a five dollar bill of satisfaction then we won't ever ask you to buy another Blanket from us.

12 Yards for \$1.

The second drive is 12 yards of a 12c Unbleached Canton Flannel for \$1.00.

16 Rolls for \$1.00.

The third drive is 16 rolls of a good 10c Cotton Batt for \$1. No more than \$1 worth each of Flannel and Ratts sold to any one customer.

NABBED THE PATRIOTS
Twenty Cuban Filibusterers Caught In New Jersey.

WAR MUNITIONS ON THEIR TUG.

They Intended to Embark on a Steamer En Route to Cuba—A Similar Expedition Successful a Few Weeks Ago—Rifles Seized in Florida.

WILMINGTON, Del., Aug. 31.—Twenty men have been brought here from Penn's Grove, N. J., and lodged in jail, charged with violating the neutrality laws in having organized a hostile expedition to Cuba. They are still here, in custody of the United States authorities.

It has been suspected for several months that a Cuban filibustering party was at work in this city. It has been learned that they have headquarters at 717 Market street, here, and that at least one, if not more, expeditions to Cuba, have been dispatched from this city. A few days ago the United States authorities here were notified by Detective Gaylor of the Pinkerton agency in Philadelphia, that another expedition was about to take its departure.

United States Deputy Marshal Hewson E. Lannen and several assistants, together with the police authorities, have been keeping a close watch ever since. They noticed a number of suspicious characters loitering about the cigar store in the neighborhood of the headquarters of the Junta and discovered that one of these had gone to the office of the Charles Warner company and chartered the tug Taurus to carry freight to Penn's Grove. They shadowed the tug until she left her wharf in this city. It was known beforehand by the authorities that the alleged filibustering party was to wait at Penn's Grove for a steamer from Philadelphia to take them to Cuba.

The pursuing party therefore permitted the men they were watching to load their freight and embark their passengers, and saw them sail in the direction of Penn's Grove where a number of detectives had been sent to await developments. Marshal Lannen, with several assistants, Detective Gaylor and two of his associates and a squad of police, under Captain Kane the board of the tug Media, and sailed to Penn's Grove. There they found the party who had chartered the Taurus lounging about the railroad station and put them under arrest. When they overhauled the freight in the hull of the Taurus they found that it consisted of 27 cases of arms, a large quantity of ammunition, provisions, clothing, etc. All of this was seized and the party returned to Wilmington.

None of the prisoners have been permitted to make any statement, and it is not thought that they will be until they are arraigned in court. An expedition very similar to this one put to sea in the tug Bertha about three weeks ago, and it is understood that its members were safely landed in Cuba.

A Washington special says: The treasury department has received a telegram from Collector of Customs Cottrell at Cedar Keys, Fla., saying that at the instigation of the Spanish consul at Tampa, he has seized, at a point 20 miles from Cedar Keys, 150 Remington rifles, a quantity of cartridges and 11 kegs of powder, which were to have been shipped to Cuba.

INDIANS FOULY MURDERED.
Official Reports Severely Condemn the Citizens of Jackson's Hole, Wyo.

WASHINGTON, Aug. 31.—The department of justice has received from the United States district attorney and marshal of Wyoming the official reports of their investigation into the Bannock Indian troubles made by the direction of the attorney general. The reports are dated Aug. 23. The district attorney for Wyoming reports as follows:

"I have no doubt, whatever, that the killing of the Indian Tanega on or about the 12th of July was an atrocious, outrageous and coldblooded murder; and that it was a murder perpetrated on the part of the constable, Manning, and his deputies in pursuance of a scheme and conspiracy on their part to prevent the Indians from exercising a right and privilege, which is, in my opinion, very clearly guaranteed to them by the treaty before mentioned. Should the prosecution on the part of the United States be determined upon, it would be useless to commence it before a commissioner. As the law is now, we are bound to bring prisoners nearest to the place of arrest, and in this case it would be before Mr. Pettigrew, who was in the conspiracy himself."

The marshal makes substantially the same report and says the Indians were murdered, after being scared into trying to escape by threats of hanging, etc., and being led to believe that their horses and not them would be shot, if they tried to get away. Then they were shot in the back.

BISMARCK GREETED AMERICANS.

The German Veterans Call on the Aged Prince at His Home.

HAMBURG, Aug. 31.—The German-American veterans have made a visit to Prince Bismarck at Friedrichsruhe. The chief forester appeared at the gate and invited four of those in attendance to enter. Prince Bismarck, who appeared to be in excellent health, walked firmly forward to meet them, welcomed them cordially, saying that he was not able to express the joy he felt at the thought that they had come so great a distance to see him. He had frequently had the opportunity of welcoming Germans from America, but today he felt especially glad to be able to greet so many of his former comrades from the other side of the water. He then invited the members of the committee to luncheon, all the members of the family of Prince Bismarck being present.

Luncheon over, the prince asked all of the German-Americans to visit the park which forms part of his estate at Friedrichsruhe. After a visit to this park the members of the delegation took up a position in front of the gate. The prince walked up and down the paths several times and greeted all the members of the delegation. He conversed with many in reference to the part that they had taken during the war with France, making many inquiries of a personal nature showing the interest taken in the German-American veterans. At the conclusion, Comrade Schlenker called upon those present to give a ringing cheer for Prince Bismarck. As all stood with heads bared, Prince Bismarck asked them to replace their hats on their heads for a slight rain was falling and he feared they might feel the ill-effects of it. The deputation then wheeled to the right with a soldierly precision which seemed to please the prince, and cheering continuously, the German-Americans marched away.

GOLD RESERVE SAVED AGAIN.

The Syndicate Places \$1,000,000 to Counteract Today's Big Shipments.

NEW YORK, Aug. 31.—The gold shipments by today's steamships were very large. Handy & Harman shipped \$100,000, and Steinwender & Stoffgren \$150,000. Hard & Rand shipped \$250,000, and Nesslage & Fuller increased by \$50,000 their gold engagements made earlier in the week for \$100,000. Crossman & Bro. increased their shipment to \$1,500,000. Oelrichs & Co. sent away \$250,000 in gold. These big withdrawals would bring the gold reserve below the \$100,000,000 point, but as expected, the government bond syndicate has placed \$1,000,000 gold in the sub-treasury, so as to maintain the reserve above \$100,000,000.

Editor McKelway on the Third Term.

LONDON, Aug. 31.—St. Clair McKelway, editor of the Brooklyn Eagle, has a letter in The Times this morning in which he declares that if President Cleveland is again nominated it will be quite different from any former movement in favor of a third term. It will be a popular protest against the limit, the earlier reason for which has ceased. It will be the people's act against conspiring politicians, Mr. McKelway concludes.

Socialist Hardie in Chicago.

CHICAGO, Aug. 31.—James K. Hardie is in Chicago. He was warmly greeted by a committee and taken to the Great Northern hotel. There, in a banquet hall filled with his admirers, he talked for an hour to 30 persons, two of whom wore scarlet ribbon bows in their coats and one of whom gave the agitator a big bunch of red roses, tied with a scarlet ribbon.

Strung Up the Negro.

JACKSON, Miss., Aug. 31.—A few days ago the 14-year-old daughter of A. Mulligan, a prosperous farmer living near Westville, gave birth to a negro child, and simultaneously one of the negro farm hands took to the woods. He was pursued and captured by a large crowd and lynched.

Fierce Fighting in Africa.

BRUSSELS, Aug. 31.—The independence of Belgium has information that there has been fierce fighting between the forces of the Congo state and the Mahdists in the district of Adda. Lieutenant Cassart and 19 men were killed.

Playing Baseball in England.

LONDON, Aug. 31.—The Boston Amateur Baseball club has beaten the Middleborough Baseball club by a score of 4 to 2. The game was witnessed by 4,000 spectators.

Testimony was taken before the grand jury at Indianapolis in the Pitzel case and it is thought a true bill will be returned against Holmes.

Ex-State Treasurer William Herbert died at New Castle, Del., after a long illness. He was born in Philadelphia in 1829, and was one of the best known Democratic politicians in the Diamond state.

Official returns have been received at the internal revenue office in San Francisco which show that the sweet wine industry of California is increasing faster than any enterprise of the federal government.

Iron and steel merchants of Birmingham have agreed to raise the price of hoops, bars, strips and angles five shillings per ton, prices ranging from six pounds to per ton, raised from five shillings. Sheetiron has also been raised five shillings, making an increase in price of a pound since June.

The employees of the Two Rivers (Wis.) Manufacturing company, comprising the crews of the sawmill and pulp mills, have struck because refused a general cash pay day.

TO FIGHT FOR IRELAND.

Great Enthusiasm Over the Approaching Convention to Be Held in Chicago.

NEW YORK, Aug. 31.—The friends of the new Irish movement to be launched at Chicago by the great international convention of men of the race, to be held there toward the close of the coming month, are getting down to active work in this city. A secret meeting of the committee of arrangements has been held here. Among those present were William Lyman, General Michael Kerwin, Counsellor M. J. Landon, Captain John Kirwan, P. J. Cody, Judge Shannon, New Rochelle; M. D. Gallagher, John F. Keatney, O. J. O'Reilly, John P. Sutton, National Acting Secretary Boland. Communications were read from 85 nationalist clubs and other Irish societies in the city in relation to the securing of credentials for the convention. There were letters in favor of the movement and pledging its support in its action for the securing of Ireland's independence, from James Everard, millionaire; Police Justice Bernard F. Martin, Judge Wauhope Lynn, John D. Carroll of Brooklyn, secretary of the Catholic Benevolent Legion, and others.

Encouraging words were also had from various other sections of the country—from O'Brien J. Atkinson of Detroit, O'Neil Allen and R. W. Holan of St. Louis, Frank Agney of Chicago, Mayor Fitzpatrick of New Orleans, Judge Cooney and Dr. M. O'Toole of San Francisco, Judge Wilber of Philadelphia. The leaders of the movement say they are confident that not since the Fenian days has there been anything to equal the enthusiasm that will be created at the coming convention, which will be the largest of its kind ever held in this country. Delegates have arrived from even far away Africa, from the Argentine Republic and South American countries.

THE FRENCH PAID INDEMNITY.

China Settled Some Riot Claims—Our Case Noted That Far Along.

PARIS, Aug. 31.—Official advices received here are that the Chinese government has granted the French missions in the province of Sze-Chuen an indemnity of 4,000,000 francs.

A Washington special says: The state department officials say that China's agreement to pay France 4,000,000 francs indemnity on account of the anti-missionary riots at Sze-Chuen is due to the fact that France decided to prosecute her claim alone and independently of the United States and Great Britain. The French had large property interests in that section, and the sum agreed upon is considered as entirely reasonable compensation for the loss sustained.

The authorities here are satisfied with the progress making in the settlement of the claims of this country and of England, which are being pressed jointly, but say that the point has not yet been reached in those negotiations, where the amount of indemnity could be suggested.

A Leper at Large.

ST. LOUIS, Aug. 31.—A leper whose malady was diagnosed and pronounced genuine by leading physicians and the health authorities, has left St. Louis for parts unknown. He came here from southern Texas six months ago. The health authorities had no where to send him, the post house being occupied by smallpox patients. While the officers were discussing the dilemma he left town.

Bissell Not Offered a Judgeship.

MARION, Mass., Aug. 31.—Ex-Postmaster General has joined his family, who are spending the season here. Mr. Bissell says there is no truth whatever in the report that he has been offered the place on the United States supreme court bench made vacant by the death of Justice Jackson.

Cholera in Honolulu.

SAN FRANCISCO, Aug. 31.—The steamer Monawai, which has arrived from Australian ports, did not stop at Honolulu as usual. When off that port the steamer was hailed by the American consul in a small boat, who announced that cholera had broken out in Honolulu.

LOCAL BREVITIES.

Mrs. J. T. King is in Springfield attending the dedication exercises of the Odd Fellows home.

An informal dance was given by the Tourist club, of East End, last evening after the show.

A party of young people spent last evening pleasantly at the rooms of the Alvin club on Market street.

The rains have done little to the river beyond swelling it slightly. The long expected rise is not yet in sight.

Some of the Liverpool boys who attended the Steubenville races failed to come in on the right side of the financial end.

Chief Gill took George Heckathorn to Lisbon this morning, and he will be confined in the county jail awaiting the action of probate court.

A party who attended the Buffalo Bill show last night spent a few hours very pleasantly dancing in the rooms of the Columbian club afterward.

The Steubenville presbytery meets next Monday at Richmond, Jefferson county. The First Presbyterian church of this city will be represented by William Fisher.

Bert Irons, the wheelman, is not riding hard these days because his old enemy, stomach trouble, has appeared to give him pain and inconvenience. He does not think the attack serious.

Lisbon sent an unusually large delegation to the show yesterday, and those who were here said the attendance would have been much greater if the rain had stayed away a few hours longer.

An old lady, very large and very deaf, came near being run down by a wagon on Franklin street yesterday evening. She insisted on walking in the road, and as several wagons were passing at that moment she had a narrow escape.

It was noticed during the show yesterday that Buffalo Bill is getting to be an old man, his once glossy mustache having turned a silvery white, and a suspicious looking bare spot appears on the top of his head. He is 64 years of age.

The machinery for the Virginia, the new packet that is to ply the Ohio in the Pittsburgh-Cincinnati trade, will soon be put in position, and the next rise will see the boat in service. It will be one of the finest boats ever seen on the river.

Three amateur plays are in course of preparation by as many different parties of young people, and will be presented in due time at the Grand. The plays are standard, and as the companies will be well trained some creditable performances are expected.

Word from Mr. Pisgah today says that D. J. Smith is very ill, and fears are entertained that he can not muster strength to bear the sickness. He suffers from typhoid fever in a dangerous form and is very weak, having been confined to his home for several days.

The arrangements for the flag raising at central school building are almost completed, and provide for a pleasing entertainment. Louis W. Spencer, state councillor, will be here on Thursday evening, and will attend the regular meeting of General Thomas council.

A letter from Doctor Lee to a member of his congregation here says that he will be home in two weeks, and is now spending a few days at the cottage of Reverend Talmage at the seashore. He is preparing a lecture that will be given on the opening of the church and will be illustrated by stereopticon views of masterpieces showing scenes from the Bible.

The sixty-second annual conference of the Pittsburgh district of Methodist Protestant church will begin the work in Allegheny next Wednesday. A large number of ministers and laymen will be present, among them being Reverend Whitehead and S. A. Shepherd, who will represent the local church. A number of Liverpool people will visit the conference during the week. The conference is one of the strongest in the denomination.

"No more political life for me when this term is over," remarked a well known member of council to a reporter. "I have tried to do what was right, but as usual I have been condemned and cursed until my wife is almost wild. When I get out of council I will quietly retire to private life, and that is all there will be to it. My wife would not let me endure another term for all the honor in the town, and you know I must do what she says."

There was the usual complement of drunks on the streets last night, but an unusual number of drunken boys. Three or four boarded a car for Wellsville in the Diamond, one of them so far under the influence of liquor that he could not sit erect without help. A youngster who had looked upon the cup when it held something more dangerous than water was declaring on Washington street at a late hour that he could lick any man in town, but some friends hustled him in a wagon, and he was hauled toward the Pennsylvania line.

That Black Dress Goods Sale

We bought the goods at less than they were worth, advertised them as bargains and the people did the rest. We sold more Black Dresses Saturday and Monday than we usually sell in a month. Why? Because we have the goods to back up our Adds. We made preparations for this sale; it was not a case of stealing another man's powder, or, in other words, taking advantage of another firm's advertising to try and help our sales along. It is a genuine sale of BLACK DRESS GOODS at prices that others cannot duplicate. Try it and see. We know what we are talking about.

About Prices.

We advertised Black Dress Goods as bargains. What we mean as bargains is at less prices than you can buy them at other sales. We intend making our word good; visit the sales, get prices and widths, then come to our store if we do not quote you less prices than you have had; we will admit at once that our sale is a fake, and that we use the Add to gull the people.

All This Week.

We intend running this sale all week. The prices are good until Saturday night. If you have any desire to own a Black Dress, at a guaranteed saving of 20 per cent, come and buy it this week. Henriettas, Storm Serges, Shower-proof Clothes, Fine Serges, Mohair, Brocades, Wool and Mohair Mixtures—in fact, we have the latest ideas in Dress Goods, and we are selling them. Watch this space Saturday for pointers on next week's bargains.
